## Editorial

**Dear Readers,**

Contemporary education mainly focuses on the all-round development of every person associated with the noble task of imparting knowledge. Keeping this in mind, we have myriad activities in the school almanac. Success comes to those who pursue their ambition with dedication and honesty. We try to harness our students' potential by providing ample platform for proving their mettle. No compromise is ever made on academic excellence. We do not overlook the importance of games and sports. There should be a balance between intellectual and physical development. Parents can also play a crucial role in bringing out the best in their kids. So, we all must gear-up for future challenges.

Happy Reading!
